

“I’m not  
saying it’s  
**fun** or **sexy...**

I’m just  
saying  
it **saved**  
**my life.**”

Having prostate problems can be embarrassing, painful and scary. Urology is the medicine that treats prostate, bladder, and kidney disease, including cancers. So, getting good urology medicine could save your life one day, as it did mine.

But since my recovery I learned that Eagle Ridge Hospital badly needs to raise **\$206,000 to upgrade its urology equipment** to help people in the Tri-cities who suffer with these conditions.

With your support, we can raise the standard of care at our community hospital to be ready when you need it. Visit [www.erhf.ca](http://www.erhf.ca) where a doctor’s video explains why this upgrade is so critical for our Tri-cities community.

Call **604-469-3128** or go online and **Donate Today**.
